

Cradlepoint MC400 Integrated 4G LTE Modem

Dual Modem Technology for More Bandwidth & Higher Availability

The MC400 Integrated 3G/4G LTE Modem fuses enterprise reliability with unparalleled agility for networking at the edge. Adding a second MC400 modem provides enterprises greater bandwidth for additional users and today's demanding applications. In addition, more and more enterprises are demanding the ability to support diverse LTE carriers within a single router for high availability requirements.

- + Load balance and add burst bandwidth for peak periods
- + Deploy multiple wireless backup connections to help acquire 99.99% uptime
- + Each modem includes two SIM slots for even more data plan diversity options. The Cradlepoint MC400 is supported on most carriers in all countries where Cradlepoint routers are sold:

- | | | |
|-----------|----------|--|
| + Verizon | + Sprint | + Generic (additional carriers in the U.S. & Canada) |
| + AT&T | + Europe | |

COMPATIBLE PRODUCTS

- | | |
|------------------|-----------------------|
| + AER3100 Series | + COR IBR1100 Series* |
| + AER2100 Series | + COR IBR900 Series* |
| + AER1600 Series | + COR IBR600B Series* |
| + ARC CBA850* | + COR IBR600C Series* |

FEATURES

- | | |
|------------------------------------|--|
| + Dual integrated modem capability | + Adds support for Verizon XLTE (Band 4 AWS) |
| + Dual SIM slots in each modem | + Adds support for AT&T LTE Band 2 & Band 5 |
| + Active GPS** | + Adds support for Sprint LTE |

*With Dual-Modem Dock or Extensibility Dock. **Available on most models.
